Testimonials

“The Power Pong robot is a BEAST! All the control that you need can be used through your phone. Every spin and drill imaginable can be programmed with ease.”

-Ron a Satisfied Power Pong User

“I love this app. It makes programming routines a snap. Very impressive and the interface is extremely intuitive. I use the robot for both training and as a cardio workout device. This unit should be in rehab centers everywhere. It takes the boredom out of cardio workouts and keeps the mind occupied, the time flies. Great work!”

-Tom a Satisfied Power Pong Omega User

“This robot might be on the expensive side but it is hard to underestimate all the features it has—different spins, placements, trajectories, and speeds in the same drill. Highly recommended.”

-Sergiy a Satisfied Power Pong User

“Best practice robot, not cheap but worth every single penny. Does everything as advertised, with quality. The app is easy to use and very intuitive and user friendly; you can change any exercise with ball placement, trajectory, and spin.”

“I’ve been using my Power Pong machine since the beginning of COVID-19. Using my Power Pong machine has been so beneficial. I love using it to work on my backhand openings and how I can put any spin, even no spin on any ball.”
